

This document contains release notes for the Version 3.2 release of FOIAonline, for release after COB on September 06, 2018. This document provides a summary of enhancements, bug fixes, and other updates contained in the release.

## **New Enhancements**

---

- Added new agency reports including:
  - Subsection (c) Used Annual Report – Tracks usage of Subsection (c) Exclusions for section XI. of the Year End Annual Report.
  - Fees Collected Annual Report– Tracks total amount of fees collected and percentage of total costs based on payments made through the system.
  - Monthly Status Report – Provides the following request and appeal metrics for a specific month:
    - Pending and Processed FOIA requests/appeals for the specified month.
    - Pending requests/appeals with response time in day increments.
    - 10 Oldest FOIA requests/appeals for the agency.
- Updated FOIA Costs Annual Report to include Litigation-Related Costs.
- Added Custom Fields to Advanced Search export. Only Custom Fields where “Include in Advanced Search” is Yes will be available in the export.
- Year-End Annual Report functionality has been added but remains restricted to users with the Help Desk role until future release:
  - Added ability users to generate a Year-End Annual Report, which will populate the YEAR table.
  - Added ability to download and view the PDF version of the Year-End Annual Report.
  - Added ability to download and view the XML version of the Year-End Annual Report.

## **Bug Fixes**

---

- Fixed Records page so the Date/Time column pulls the Created Date instead of the Last Modified Date.
- Fixed issue where Requester Justification was not redacted for public search results.
- Fixed public view of cases so Requester Information, Request Description, and Supporting Attachments are visible based on agency selection.
- Fixed issue with broken JavaScript on Appeal Begin Close Out page.
- Fixed issue where new appeals (internal and external) were not picked up by the index.
- Fixed issue where fields in the Original Request Information section were not populated for external appeals.
- Fixed JavaScript issues on Advanced Search page where users were not able to search by Assign to Individual and Assign to Organization.

- Fixed issue where the original description was not preserved when the description was available to public. Also, fixed display issues when showing original and modified description.
- Fixed issue where descriptions of a certain length were truncated in the expanded details section of dashboards.
- Disabled the Save button on certain pages so users cannot press it repeatedly.
- Fixed a display issue due to responsive design code in the Supporting Files section of registered users' modify pages.
- Fixed a display issue due to responsive design code on reports.
- Fixed an issue where the Exemption 3 Statutes Annual Report would error on generation.
- Fixed an issue where comments could not be deleted from the Comments tab.
- Fixed an issue causing registered users to be unable to modify case details.
- Fixed a JavaScript issue with the Agency Transferring To field in IE that prevented users from using the transfer function.
- Fixed the notification sent to requesters upon assignment to only send when the tracking number is changed.
- Fixed issue with records not uploading when Record Title is edited.
- Fixed issue with Referred To Participating Agency field not displaying the correct value in the expanded details section for records.
- Fixed issue where Request Types were not displaying during case creation for users assigned to a Level 2 sub-agency and below.
- Fixed issue where Status would revert to "Research Records" on closed requests when they were appealed.
- Fixed issue where users with apostrophes in their name or email encountered errors when trying to begin close out.
- Fixed links to closed tasks in search results that took users to an open view of the task.
- Fixed User Administration Search to no longer be case sensitive.
- Fixed issue on the Financing tab so that invoices and the New Payment section display correctly.
- Fixed issue with the close out process changing the record Release Date on previously released records.
- Fixed issue with broken JavaScript on agency user creation.
- Fixed issue where Fee Waiver and Expedited Processing report results were displaying null values for migrated cases.
- Fixed issue where the Appeals Disposition table remained on the page when trying to change Annual Report criteria and run a subsequent report.

## Other Updates

---

- Added Build Timestamp to JavaScript Code, which forces the browser to pull the latest code instead of cached code. This update negates the need for users to hard refresh their browsers.
